

Fourlis group supported the Greece Race for the Cure® initiative, for yet another year

Fourlis group proudly supported the Greece Race for the Cure® 2025 once again, reaffirming its commitment to initiatives that promote health, awareness, and prevention. A team of the group, consisting of employees and their families, joined the event, walking and running together with a shared purpose: to strengthen the fight against breast cancer.

By taking part in this meaningful event, organized annually by the Hellenic Association of Women with Breast Cancer – Alma Zois, the group continues to stand by initiatives with strong social impact, spreading the vital message that prevention saves lives.
