

Fourlis group employees participated in the National Corporate Sports Games for yet another year

Fourlis group employees in Attica took part once again in the Hellenic Company Sports Games, held from October 10 to 12, organized by the Hellenic Organization of Corporate Sports and Health (HOCSH).

During the competition, participants faced opponents from 65 companies and organizations in both individual and team sports, achieving notable distinctions and bringing the group to 20th place in the ranking of companies with the most medals.

This participation was part of the EY ZIN (Well-Being) program, which Fourlis group has been implementing since 2010, aiming to raise employees' awareness on health and well-being issues and motivate them to adopt a healthier lifestyle.
