Fourlis Group participated in the 18th Greece Race for the Cure®

Fourlis Group participated once again in the Greece Race for the Cure®, organized by the Hellenic Association of Women with Breast Cancer “Alma Zois”, actively supporting the important message of breast cancer prevention and awareness.

Our people joined forces and took part in an initiative with a strong social impact, helping spread a message of solidarity, hope, and support for every woman facing her own battle with breast cancer.

Our participation in the Greece Race for the Cure® 2026 is yet another reflection of Fourlis Group longstanding commitment to initiatives that promote health, social awareness, and contribution to society.
