

## IKEA supports the Environmental Organization for Wildlife and Nature CALLISTO

In May 2014, **IKEA** hosted the Environmental Organization **CALLISTO** in its stores in Thessaloniki, Thessaly and Ioannina, aiming to support its important environmental work.

The action was held within the **FOURLIS** Group Social Responsibility Program, giving the opportunity to the **IKEA** visitors to learn about the importance of the coexistence of humans with wildlife and nature.

During the presence of the Organization in the **IKEA** stores and, more particularly, on Saturday, May 17<sup>th</sup>, **CALLISTO**'s staff and volunteers held a seminar for the **IKEA Family** program members and their children at the **IKEA** Thessaloniki and Thessaly stores.

The children, who participated in the seminar, spent their time pleasantly and creatively, making crafts and learning about the importance of the wildlife and environment protection.
